The Williams Syndrome Association

2020 National Convention Sponsors*

Please join us in support of the Williams Syndrome Association’s national convention and make a difference for individuals with Williams syndrome and their families.

As a sponsor, you have the opportunity to support the pillar of the convention which resonates with you and matches your personal philanthropic goals. Sponsorships at any level will make a meaningful difference, but investments at the higher levels of $25,000, $10,000, or $5,000 in any specific interest level will have an immeasurable impact.

*sponsorship recognition and benefits are commensurate with level of commitment

Sponsor Opportunities

Community Sponsors
Community sponsors enable those with Williams syndrome to attend a socially inclusive day camp where they will form lifelong friendships, strengthen their community, and give parents the freedom to attend critical seminars while their children are attending specialized programs.

Bee Strong Therapy Sponsor
Therapy sponsors support programming focused on providing therapeutic knowledge and support to parents of young children - helping connect families with professionals from every therapeutic discipline for small group and private interactive experiences including personal evaluations, interventions and parent-to-parent networking.

Research Sponsor
Four decades of research conducted at WSA conventions has contributed to our knowledge of WS. Research sponsors provide the resources for researchers to attend and assess current obstacles in order to anticipate future challenges, as well as present past findings to parents & their peers.

Prosperity Sponsors
Advance the WSA’s efforts to change the landscape and ease the challenges that accompany self-direction, and the transition to adulthood: safety and criminal justice, job seeking and employment, financial management and planning, and finding appropriate housing. All are vital to the achievement and success of those with Williams syndrome.

Education Sponsor
Education sponsors connect families to clinicians and educators. The convention is the most comprehensive platform to share current, vetted, metric-driven information about health, nutrition, IEPs, anxiety management, and many other issues specific to WS.

Scholarship Sponsor
Scholarship sponsors provide the means to attend the convention to individuals and caregivers who would not otherwise be able to join us. The knowledge that they gain about every aspect of Williams syndrome is often life-changing for individuals with WS.

The Williams Syndrome Association is the world’s leading organization for individuals with WS and their families - dedicated to providing support and resources across the lifespan.
The WSA is a federal 501(c)(3) charity # 22-3305007. For more information: williams-syndrome.org
